

Name: Rayudu Laharika

Domain: Full Stack Development

Date of Submission: 22-05-2026

Week Ending: 04

I. Overview

This week, the primary focus was on learning Full Stack Development concepts and improving frontend application development skills. I worked on a Media Catalog App using HTML, CSS, and JavaScript to manage movie records with features such as add, delete, and search functionality.

II. Achievements

1. Full Stack Development Learning:

- Completed Full Stack Development learning modules.
- Improved understanding of frontend application structure.
- Practiced JavaScript DOM manipulation concepts.

2. Project Development:

Name of the project:- Media Catalog App

- Created a Media Catalog App using HTML, CSS, and JavaScript.
- Implemented Add Movie functionality.
- Implemented Delete Movie functionality.
- Implemented Search functionality.
- Improved responsive UI design.

3. Frontend Development Skills:

- Practiced JavaScript functions and event handling.
- Improved CSS styling and layout management.

- Learned dynamic content rendering using JavaScript.

III. Challenges

1. JavaScript Functionality:

- Faced issues while implementing delete and search features.
- Required debugging to properly update dynamic movie cards.

2. UI Design:

- Encountered alignment and responsive design issues.
- Worked on improving layout and spacing for better user experience.

IV. Learning Resources

1. Upskill Campus Learning Portal:

- Utilized Full Stack Development learning materials.
- Completed weekly learning activities and quizzes.

2. Frontend Development Practice:

- Practiced HTML, CSS, and JavaScript through project implementation.
- Referred to online tutorials and documentation for improving frontend concepts.

V. Next Week's Goals

1. Project Enhancement:

- Improve application design and responsiveness.
- Add more interactive frontend features.

2. Skill Development:

- Continue learning advanced full stack concepts.
- Practice more JavaScript and project building.

VI. Additional Comments

This week helped improve my frontend development skills and problem-solving ability. Working on the Media Catalog App increased my confidence in JavaScript DOM manipulation and UI design.
